

# Gemini Two-Pocket Roll Plant

## FG398-VD3000DP220V

MONO Equipment's Gemini Two-Pocket Roll Plant is designed to effortlessly produce high volumes of rolls with accuracy and consistency with a generous output of up to 3,200 rolls per hour.

Requiring just one person to set up and operate, the compact Two-Pocket Roll Plant automatically divides and shapes dough pieces within a surprisingly small footprint, making it the perfect solution for small to medium sized bakeries that need a robust, accurate and reliable roll production plant with high output.

### Features and Benefits

- Product weight range - 1oz to 3½oz, 1¼oz to 3¼oz and 1¾oz to 5oz
- Produces up to 3,200 rolls per hour
- Stores up to 60 programmes
- Exceptional accuracy of roll weight, size and shape
- Top-loading 33lbs Teflon coated hopper
- Fully automated dividing and rounding process
- Special star rollers feed the dough with minimum pressure
- User-friendly touch-screen controller
- Two integrated flour dusters
- USB Programmable
- Features two offtake belts
- Fitted with interlocked safety switches and safety guards
- Stainless steel construction
- Small footprint
- Speed Menu
- Dough Capacity Depth Menu
- Pre-Scaler Flour Duster Menu
- Conveyor Belt Flour Duster Menu
- Rounder Plate Speed Menu
- Diagnostics function to monitor performance
- 3 phase electric supply

# Specifications and Dimensions
