

Dough Handling

Roll plant

2 Pocket

Description

The 2 pocket roll plant is used for the dividing and rounding of dough for the production of buns and rolls. Soft doughnut mix, stiff pretzel dough and dough which has a tendency to stick can be processed effectively. The results are as good as with hand moulding.

Features

- Large doors allow access for maintenance
- The machine is on castors with a flip up offtake conveyor for easy storage
- Easy one man operation
- Adjustments can be made to the dough piece weight, size and speed
- Stainless steel panels

Machine Reference

Reference	Model
FG408	2 pocket roll plant

Options

- Long-roll attachment
- Intermediate prover
- Stamping station

Dimensions:

Height: ? mm
Width: ? mm
Length: ? mm
Weight: 570kg
Power: 400v/3 phase/50Hz or 200v

Capacity:

Outputs 1950 - 3200 per hour
Weight ranges: 30g - 115g
Hopper capacity: Up to 15kg
