

Water - Dosing & Chilling

Water meter

310 Mechanical

Description

The 310 Mechanical Water and Measuring Meter is designed to give accurate, repeatable quantities of fresh water. It will eliminate expensive, time-wasting errors and ensure consistency and savings right down the line. In fact, it will pay for itself in no time at all.

The 310 Twin water meter is an easy to use system for metering.

Features

- Complete consistency - eliminates expensive time wasting errors
- Delivers correct quantity of water straight into your mixer at your chosen temperature
- No electrical connections required

Machine Reference

Reference	Model
FG310	310 Mechanical
FG310	310 Twin Mechanical

Dimensions:

Model:	310	310 Twin
Water meter:		
Height:	305mm	305mm
Width:	216mm	216mm
Depth:	229mm	229mm
Weight:	10kg (approximately)	10kg (approximately)

Wall plate (supplied with each meter):

Height:	356mm	800mm
Width:	267mm	350mm

Specifications:

Single measured delivery range:	1-100 litres (0.22 - 22 gallons)	1-25 litres (0.22 - 5.5 gallons)
Indicated thermometer range:	0°C - 60°C	0°C - 45°C

Water connections:

15mm diameter hot and cold supplies at equal pressure. This can be achieved by having header tanks at the same height above the unit, or by fitting a pressure reducing valve in hard water.
