

Mixing

Bowl elevator

ESR/3 - ESR/M

Description

The ESR bowl tilter enables the contents of an SPLA or FBL A removable mixing bowl to be load onto a table or into a divider hopper.

Designed for the unloading of the dough at respective heights of 2 200 mm, 2 600 mm and 3 000 mm, mainly towards workbench or volumetric dividers. The lifting system works with 2 speeds and independent pressure buttons.

Features

- Epoxy painted frame (food-grade)
- Sturdy steel structure
- Wheel-mounted with floor fixing
- No floor anchoring necessary
- Dual manual safety control

ESR/3 - ESR/3M models feature an hydraulic lifting system and a hold to run safety system and are designed to be used to unload dough on bench or on the hopper of SP volumetric dividers.

ESR/M22 - M26 - M30 - models feature a screw lifting system and are meant to be used mainly with motorized hoppers in automatic production lines. They have a ring cage safety system with gate. Lifting and lowering movements run at double speed with independent push buttons.

Machine Reference

Reference	Model	Bowl capacity
FG439	ESR/3 - unloading on bench	160 - 200kg
FG439	ESR/3 - unloading on bench	250- 300kg
FG439	ESR/3M - unloading on hopper	160 - 200kg
FG439	ESR/3M - unloading on hopper	250 - 300kg
FG439	ESR2/M22 - unloading height 2230mm	160 - 200kg
FG439	ESR2/M22 - unloading height 2230mm	250 - 300kg
FG439	ESR2/M26 - unloading height 2500mm	160 - 200kg
FG439	ESR2/M26 - unloading height 2500mm	250 - 300kg
FG439	ESR2/M30 - unloading height 3065mm	160 - 200kg
FG439	ESR2/M30 - unloading height 3065mm	250 - 300kg

Options

- Other voltages available

Dimensions:
