

NEW Stainless Steel Version

Description

This affordable table top Roll Slicer has proved to be a valuable asset to many bakers and caterers, as it not only slices round rolls, but finger rolls, doughnuts and eclairs too.

Slicing at a rate of up to 40+ rolls per minute, the Roll Slicer from MONO Equipment takes the effort out of bread roll slicing, providing consistently cut rolls time and time again.

The Roll Slicer is easy to operate and a simple adjustment means that the the position and depth of slice can be varied to suit your exact needs.

Features

- New Stainless Steel Construction
- Circular high-tensile steel blade
- Simple to use
- Gravity-fed delivery chute
- Single person operation
- Easy access for cleaning
- Must be supplied with Base Table for sale within the European Union
