Introduction to the Eco-Flow Zero Water Meter

Congratulations on the purchase of your Eco-Flow Zero Water Meter which has been manufactured to the highest standards by MONO Equipment; a water meter which we are proud to announce has ZERO Water Wastage.

Water is a commodity we cannot live without, and due to population growths, changing weather patterns and global warming etc. it is generally accepted around the world that we should try to conserve as much of this expensive resource as we can. Using the Eco-Flow Zero Water Meter will help towards this goal.

The state-of-the-art water meter features a full-colour touch-screen control panel which provides a simple user-friendly interface to the many features and benefits inherent in the Eco-Touch Zero, including the ability to manage product recipes and control up to 2 mixers simultaneously. Full details can be found online at www.monoequip.com.

This User Manual covers Eco-Flow Zero Water Meter models FG011-A06.

2.1 Key Features

ZERO Water Wastage technology combined with great energy efficiency

WRAS Approved

User-friendly, icon-driven, touch screen navigation with comprehensive recipe management facility

Tablet and smart phone display air mirroring capability

Energy Monitoring Software with real-time management information via KPI screens, including exceptions reporting on usage times, idling times etc.

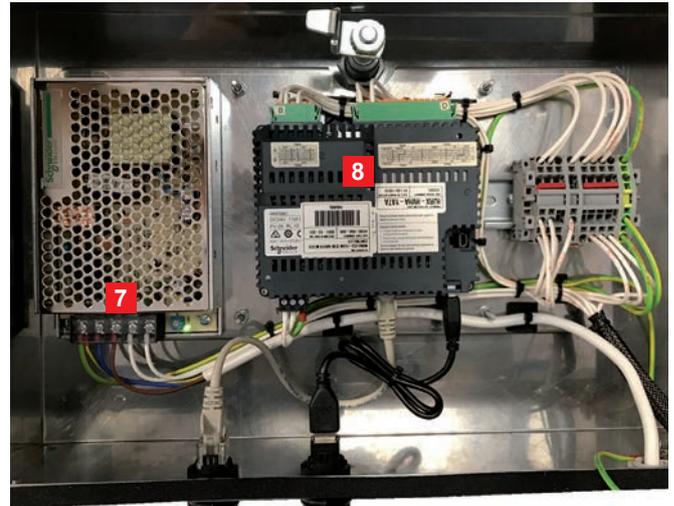

Self-Diagnosis screens. Alarms/ run-time diagnostics

Ethernet and USB compatible

Product Specifications FG011-A06

4

Item	Specification
Supply Voltage	230V AC - 240V AC / 110V AC
Fuse Rating	5A
USB	2.0
Display Size	5.7 inch
Display Type	Backlit Colour TFT LCD
Display Resolution	320 x 240 pixels QVGA
Operating Temperature Range	0°C to 50°C (32°F to 122°F)
Weight of Unit	14.5kg (plus additional 1kg with installation kit)
Weight of Unit (Packaged)	18kg (plus additional 1kg with installation kit)
Minimum Inlet Water Pressure	Flow 1 litre/minute
Maximum Inlet Water Pressure	Flow 20 litres/minute
Chilled Water Inlet Temperature Range	Optimum 1°C to 5°C (33.8°F to 41°F) Range 1°C to 10°C (33.8°F to 50°F)
Hot Water Inlet Temperature Range	Optimum 40°C (104°F) Range 30°C to 60°C (86°F to 140°F)
Ambient Water Inlet Temperature Range	Optimum 15°C to 30°C (59°F to 86°F)
Water Flow Rate	Optimum 10 litre/minute to 15 litres/minute Range 1 litre/minute to 20 litres/minute
Mixer Connectivity	Up to 2 - Escher M60 Premium

Safety Guide

5

5.1 General Safety Precautions

- This equipment must be installed by qualified personnel
- Disconnect all power before working on or inside equipment
- Ensure the mains power supply matches the power requirements of the product
- Do not strike the touch panel with a hard or pointed object, or press the touch panel with excessive force, since it may damage the touch panel or the display
- Do not use this unit in locations where large, sudden temperature changes may cause condensation inside
- Do not store or use the unit where chemicals (such as organic solvents, etc.) and acids can evaporate, or where chemicals and acids are present in the air
 - Corrosive chemicals; acids, alkalinise, liquids containing salt
 - Flammable chemicals: Organic solvents
- Do not use paint thinner or organic solvents to clean the screen. Avoid using cleaning agents.
- Do not store or operate the LCD display in areas receiving direct sunlight, since the sun's UV rays may cause the LCD displays quality to deteriorate
- After turning the unit OFF, be sure to wait 30 Seconds before turning it ON again
- Do not pressure wash or steam clean
- Please conform with storage recommendations as damage may occur if item is stored on its side
- All repairs and maintenance should be carried out by suitably qualified personnel.

Installation Instructions

6

6.1 Toolbox Required

- 1 x Flat Headed Screw Driver
- 1 x Fixing Template
- 1 x Electric / Battery Drill
- Suitable Drill Bit (depending on substrate)
- Suitable Rawlplugs (depending on substrate)
- Weighing Scales to Weigh 20+ kg
- Bucket to hold up to 20+ litre of liquid
- 1 x Pencil for marking the fixing positions on the wall
- Spirit level.

Please check that you have all the items listed above before starting the installation procedure.

6.2 General Installation Advice

- Suitable 13 amp socket / power supply
- Suitable access to ambient water supplies
- Ensure the wall on which the water meter is to be mounted is structurally stable and suitable to hold the weight of the unit
- Ensure the wall is clear of any debris and / or any obstructions (ie. Any old pipework etc)
- Ensure safe manual handling techniques are used throughout
- Hold the Fixing Template supplied at the correct height on the wall and mark the drill holes required using a pencil - ensuring the template is level
- Using the correct size drill bits, drill four holes produced using the Fixing Template and plug with the rawlplugs
- Carefully remove the water meter from the packaging and check that all the items are present
- Locate and mount the water meter on the wall, ensuring it is level.

Installation Instructions

6

- Once the water meter is securely fitted to the wall, the pipework can be installed and connected
- Once connected, you are now ready to commission the water meter.

6.3 Installing with Connections to Spiral Mixers Without Timers

- Connect the water inlet and outlets using the pipe and fixings supplied.

Cleaning Instructions

7

7.1 Daily Cleaning Procedures

This equipment should be cleaned daily using a soft cloth and approved chloride-free cleaning fluid.

NOTE: Do NOT use paint thinner, organic solvents, or a strong acid compound to clean the unit.

Setup Guide

8

Default screen for Eco-Flow Zero Water Meter with Non-Mixer Controls

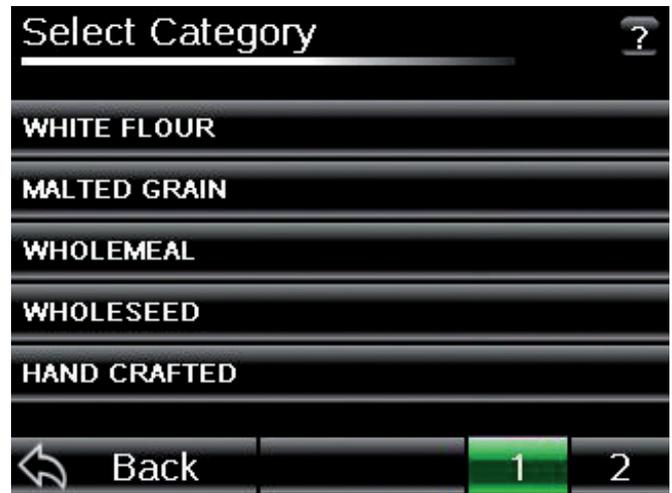

8.1 The Home Screen

- **STANDBY:** Pressing 'Standby' will take you back to the default home screen which is user - configurable
- **SLEEP:** Pressing 'Sleep' disables the backlight and switches the Eco -Touch Zero Water Meter to screensaver mode. After 10 minutes of inactivity (user-configurable), the screen will automatically enter Sleep Mode.

Operating Instructions

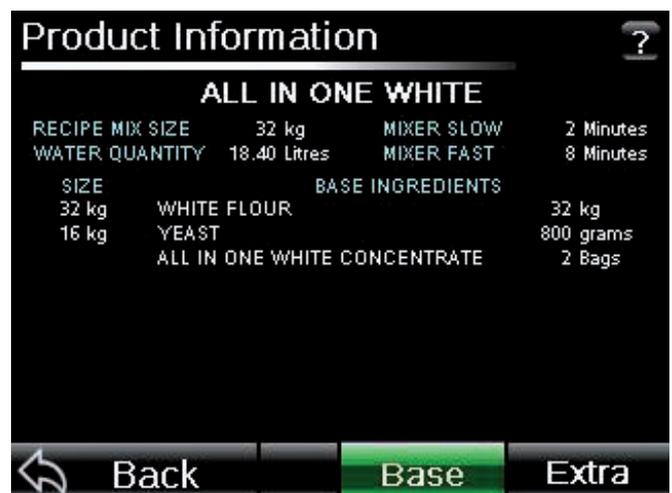

9

9.1.1 Mixers With Timer Controls

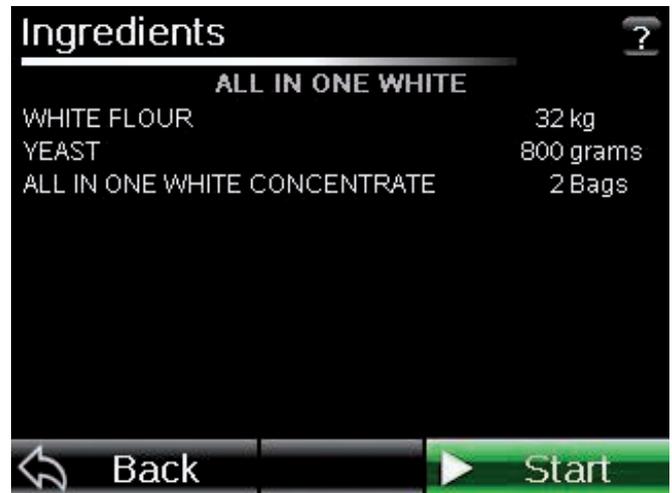

Procedure:

- Select Recipe (if only 1 mixer is set up then only 1 mixer icon will appear on the screen)
- Select Category (use Page Number at the bottom of the screen to navigate through the menus)
- Select Product (use Page Number at the bottom of the screen to navigate through the menus)
- Pressing the 'i' icon will display the Product Information prior to selection, including Base and Extra ingredients.

Operating Instructions

9

- Select 'Mix Size'
- Load your ingredients in to mixer as displayed on the screen
- Press 'Start'.

- Using the information provided set your mixer to operate for the set durations for slow and fast speeds
- Once you have done this press the 'Next' button

9.1.2 Adjusting the Mix (if Required)

- To add extra water at the end of a mix press the 'Extra Water' icon to add an additional 0.5 litres to a mix
- Start the mixer on Fast speed until the dough is the correct consistency
- Repeat the procedure as necessary to achieve the desired dough quality.
- Press the 'Next' button

Operating Instructions

9

9.1.3 Extra Ingredients

Upon completion of a mix, certain recipes will require 'Extra Ingredients'

- On-screen will detail what additional ingredients are required
- Add the ingredients to the mixer

- After loading the extra ingredients set the mixer to mix for the desired amount of time
- Once the mix is complete press the 'Next' button
- Select if you wish to 'Repeat the Recipe' or 'Finish'

9.1.4 Repeat Recipe

- Pressing the 'Finish' button takes you back to the home screen. Pressing the 'Repeat' button takes you back to the start of the mix.

Troubleshooting

12

12.1 Statistics

Selecting 'Statistics' will present you with two icons, 'Historic' and 'Batch'.

- Historic - This will display statistics from day 1 of operation of the device.
Reset historical statistics (set Factory Default Menu).

- Batch - This will display statistics from the last time the Reset icon (pictured below) was selected.

Above shows a 'Batch Statistics' screen which has the date in blue denoting when the batch counter was last reset.

Troubleshooting

12

12.1.1 Statistics - Water

- Displays water usage statistics. Cost can be calculated by entering values accordingly. Adjust costs by tapping the cost and entering a monetary value in pence.

Water Usage	
Total Water Dispensed	26 Litres
Water Dispensed Manual	0 Litres
Water Dispensed Left Mixer	0 Litres
Water Dispensed Right Mixer	0 Litres
Water Deliveries	0 Cycles

← Back Water Usage →

Cost		
	From	
	Cost / Litre	Total
Ambient Water	0.00	0
Total Cost For Delivered Water		0
	Cost / kWh	Total
Electricity Usage	0.00	0

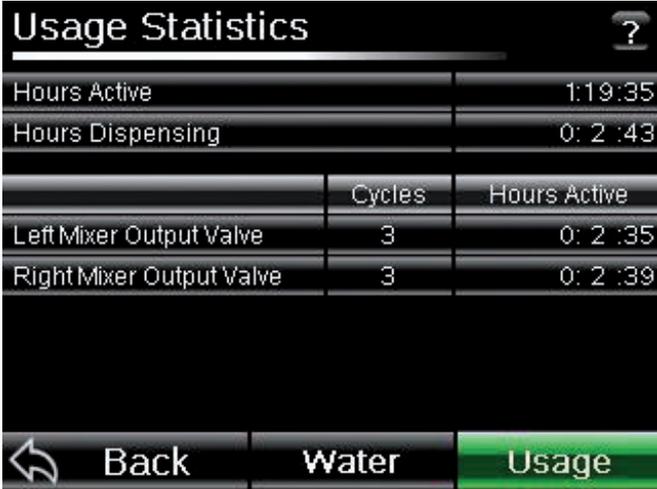

← Back

Troubleshooting

12

12.1.2 Statistics - Usage

- The usage statistics page will display how many times a valve has been cycled and how long that valve has been energised or in operation. This is accessible from the 'Usage' icon on the bottom of the screen.

The screenshot shows a mobile application interface for 'Usage Statistics'. At the top, the title 'Usage Statistics' is displayed with a help icon (question mark) to its right. Below the title, there are two rows of summary statistics: 'Hours Active' with a value of '1:19:35' and 'Hours Dispensing' with a value of '0: 2 :43'. A table follows, with columns for valve names, 'Cycles', and 'Hours Active'. The table lists 'Left Mixer Output Valve' and 'Right Mixer Output Valve', both with 3 cycles and approximately 2:35-2:39 hours active. At the bottom, there are three navigation buttons: 'Back' with a left arrow icon, 'Water', and 'Usage' which is highlighted in green.

Usage Statistics		?
Hours Active	1:19:35	
Hours Dispensing	0: 2 :43	
	Cycles	Hours Active
Left Mixer Output Valve	3	0: 2 :35
Right Mixer Output Valve	3	0: 2 :39

Navigation buttons: Back, Water, Usage

Troubleshooting

12

Disposal Advice

13

The Eco-Flow Zero Water Meter must be removed by an approved Waste Carrier and disposed of in accordance with the WEEE Directive 2012/19EU.

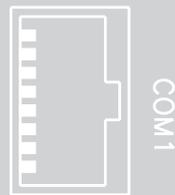

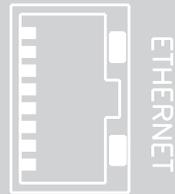

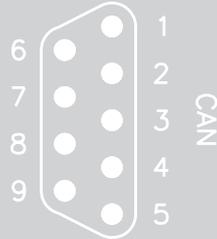

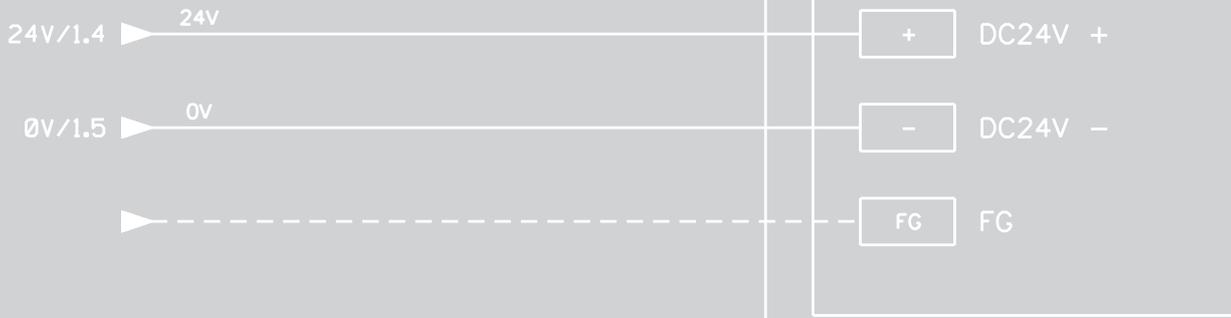

Maintenance Procedures

14

14.1 Maintenance Procedures

- Check Filters are free from debris and cleaned annually
- Ensure hinges operate correctly and oil as required.
