

## The only secret ingredient is a very special relationship

When MONO Equipment's original depositing machine first rolled off the production line in the 60s, they knew that producing the best depositor the world had to offer wouldn't be enough. That's why today, MONO places just as much importance on advising, supporting, and helping customers like Kashmir Crown Bakeries to grow, as it does on making the most efficient, accurate and consistent depositors on the market.

For help and further information on the state-of-the-art Omega Touch, Omega Plus, Omega Plus with Wire cut Depositors, or for more on our much-anticipated, *all-new* Universal Depositor range, contact one of our sales people today.

Omega Plus  
Confectionery Depositor

"This business is all about people  
and our relationship with Mono is like  
a marriage. It is about friendship"

*Asim Saleem, Managing Director  
of Kashmir Crown Bakeries*
