NEW Static Rack Oven

ALL THE BENEFITS OF A RACK
OVEN WITH A SMALLER FOOTPRINT

NEW Static Rack Oven

1

Heat Proof Racks

Able to accommodate any 600 x 400cm, 30" x 18" or 26" x 18" heat proof rack.

2

Smaller Footprint

A smaller footprint than a regular Rotary Rack Oven to fit smaller/more compact bakeries.

3

Large Baking Capacity

Large baking capacity - ability to bake up to 280 bread rolls at once on 14 trays.

4

Touch-Screen

Intuitive touch-screen Eco Connect control panel.

5

Access Ramp

Access ramp to easily slide racks in and out of the oven.

6

Energy-Saving Features

In-door LED lights, Sleep Mode, Auto Shutdown and 7-Day Timer.

MONO Equipment's **NEW** Static Rack oven is the perfect solution when a traditional 10-tray convection oven just doesn't have the required baking capacity to meet production demands. By eliminating the need for the rotary function, valuable space has been saved which means up to 18 trays of products can still be baked to perfection, but in a much smaller footprint. In fact, the **NEW** Static Rack oven uses a similar amount of floorspace as many 10-tray convection ovens on the market.

The **NEW** Static Rack oven is the ideal oven for baking large volumes of both part-baked and lighter scratch products. The combination of the specially designed heating elements and triple fans ensures an even heat distribution throughout the baking chamber, resulting in a consistent bake each and every time. Also, the integrated steam generating system produces copious amounts of high-quality steam to create that perfect shiny crust on breads and rolls.

The Static Rack oven features MONO's **NEW** Eco Connect control panel which delivers a full-colour, highly-intuitive touch-screen interface for the user which offers many energy-saving benefits like Auto Shutdown, 7-Day timer and Sleep Mode. In total, the controller can store up to 240 individual bake programmes, each of which can be split in to 6 bake phases for complete control of the baking process.

This compact Static Rack oven will make a highly versatile and valuable addition to any bakery.

7 Key Features

- Compact size for smaller bakeries
- Intuitive, touch-screen Eco Connect controller
- Integrated steam system
- 6-Phase baking options
- Automatic damper facility
- LED door-mounted lighting
- Available in right-hand or left-hand configuration

7 Key Benefits

- Provides fantastic baking capacity in a footprint not much bigger than a 10-tray Convection oven
- Accommodates any 600 x 400cm, 30" x 18" or 26" x 18" heat proof rack
- Rapid heat recovery rate for continuous baking
- Includes many energy-saving features like Auto Shutdown and Sleep Mode
- Full-Load or Half-Load options
- No drainage required
- Stores up to 240 programmes for instant recall

Specifications and Dimensions

Specifications	Electric
Height (mm)	2,195 (86.5")
Height inside (mm)	1,900 (75")
Width (mm)	1,061 (42")
Depth - not including handle or access ramp (mm)	1,150 (45.25")
Depth - including handle and access ramp (mm)	1,299 (51.25")
Depth - door open (mm)	1,800 (71")
Footprint area (m ²)	1.15 (12.37 sq.ft)
Tray Size (mm)	600 x 400 and 30" x 18" and 26" x 18"
Steamer system	High mass water injection solenoid operated supply
Max trolley size (mm)	560 (22") - Width 760 (30") - Depth (including bar)
Water pressure	
Minimum	2.0 bar (29psig)
Maximum	5.5 bar (80psig)
Damper	Solenoid operated trapdoor type. Automatic.
Noise Level	Less than 85db
Power- UK	
Total Power (kW)	28
Heating (kW)	27
3 Phase	415V, 3 phase N Plus E, 50Hz, 39 Amps per phase

High definition touch-screen controller.

When the oven is at the desired temperature the ready screen will be displayed.

Able to store up to 240 unique baking programmes.

Option to have pictorial or numerical programme screens.

MONO Equipment is the leading designer and manufacturer of bakery and foodservice equipment in the United Kingdom. This proud heritage of British Craftsmanship, combined with a reputation for creating high-quality, innovative products, can be traced back to its origins in 1947.

MONO Equipment's professional bakery rack and convection ovens are the preferred choice of many of the UK's leading supermarket chains and independent artisan bakers who all demand the very best quality, reliability and value for money.

MONO Equipment's **NEW** Static Rack Oven provides the generous baking capacity of a standard rotary rack oven but in a much smaller footprint. Up to 18 trays of product can be baked to perfection using any propriety heat-proof baking rack taking 30" x 18" or 60cm x 40cm trays, but within an area similar to a standard 10-tray convection oven.

The **NEW** Static Rack is one of MONO's latest innovations, designed to fit more compact bakeries that produce high quantities of bakes while still maintaining the same superb quality of a standard Rack or Convection oven.
