

# STOPPIL S2200 E

## THE DIGITAL WATER METER FOR BAKERS

**AMT** type - with thermostatic mixing valve  
**AMM** type - with manual temperature mixing  
**A** - without temperature mixing  
« CLASSIC » Range

### TIME SAVING

- Last batch memorized
- Automatic temperature mixing on AMT type

### EXCELLENT DOUGH QUALITY

- Very good volume accuracy from 0,5 to 999,9 litres

### PRACTICAL

- Easy litre display 1/10<sup>e</sup> l.
- Stainless steel box, easy maintenance.
- Sensory keys.
- Supplied with kits.

### MAINTENANCE BENEFIT

- Reliable components
- Reduced maintenance
- Counting components few sensitive in limestone
- 2 YEARS WARRANTY

**This new range of CLASSIC water meters offers the industrial technology to the bakery. Packs, including Tower water meter and under pressure water chiller can be delivered with a reduced price.**

# STOPPIL Water Meter S2200 Electronic

« Classic » range

**S2200 A**

**S2200 AMM**

**S2200 AMT**

- Digital display 25 mm high figures.
- Accurate counting system without any mobile component (few sensitive in limestone).
- Litres : blue display from 0.5 to 999,9 litres
- Temperature : red display for the outgoing water
- **S2200-A** : without temperature mixing
- **S2200-AMM** : with manual temperature mixing
- **S2200-AMT** : with high standard thermostatic mixing valve particularly adapted to iced water up from 1°C.

Graduation: 0 - 40 °C

Accuracy: ±1 °C

- Flow of water depending on inlet pressure: 6 – 25 l/mn
- Separated electronic module installed in an stainless steel protection box
- Signal for the water chiller pump control
- Supplied with :
  - Inlet kit with filters
  - Metallic swan neck filling nozzle with flexible pipe
- Warranty 2 years on spares and labour

#### Requirements :

- Electricity: 100 to 240 V - 50 and 60 Hz
- Pressure: from 1 to 5 bar each inlet
- Hot water: 60 °C max
- Pipes: Ø 16-18 mm diameter copper pipes recommended
- Accuracy ± 0,3 % on volume  
± 1 °C on temperature
- Connecting: ½ female gas inlet

#### Dimensions (H x L x W) and weight

S2200 A / AMM / AMT: 40 x 30 x 18 cm

14 Kg net weight
