

BX Oven Base Proofer

FG177-S06

MONO Equipment's BX Base Proofer perfectly complements our convection ovens in the BX range. It has been designed to fit below a BX Convection Oven or can be used as a stand-alone unit.

Our BX Base Proofer creates the perfect humid environment for your doughs and the mains water supply removes the need to manually fill the proofer.

Each BX Oven Base Proofer is suitable for 18" x 26" and 26" x 18" pans with a stainless steel door. Featuring lockable safety castors for ease of manoeuvrability, the copious amount of stainless steel used in their manufacture guarantees them to be durable, hygienic and easy to clean.

Features and Benefits
